

## EVAC April 2018 Auction and Estate Sale

Please join us on **Friday, April 20, at 6.30 pm**, one hour before the regular meeting of the East Valley Astronomy Club for a used equipment auction of items donated to EVAC over the last couple of years. The meeting will be held at the Gilbert Southeast Regional Library, 775 N. Greenfield Road, Gilbert, Az. The library is located at the Southeast corner of Greenfield and Guadalupe roads. Please enter through the side door on the northeast side.

At 6:30 there will be an auction of larger items shown in the photographs below. After that will be a general sale of small telescopes, eyepieces, and accessories, as well as over 250 books and magazines from the estate of Gerry Rattley. The sale is open to EVAC members and non-members. Minimum bid prices have been set by the EVAC Board. Items that do not receive a bid higher than the reserve will remain unsold. All items are sold "as is", and need to be removed that evening. Bring cash or check (we may ask for ID).

We hope that you will come join us in supporting this great hobby and encouraging astronomy for generations to come; then stay for our meeting featuring Dr. Dennis Zaritsky, Deputy Director of the Steward Observatory at the University of Arizona who will be speaking about Halos of Hydrogen Gas surrounding all galaxies. It should be a memorable night.
